

Henalu de Barros

FULL-STACK DEVELOPER & WEB BUILDER

I build web products that are fast, purposeful, and built to last.
From idea to deployment — I handle the full stack.

WORK EXPERIENCE

ServiceNow Technical Consultant · [CoreX Corp](#) 2025 – Present

- Developing custom platform solutions and automations for enterprise clients
- Building and maintaining complex integrations (REST APIs, case management)

ServiceNow Technical Lead · [DXC Technology](#) 2023 – 2025

- Led end-to-end delivery: analysis, architecture, development, testing, deploy
- Designed automation logic, custom workflows, and scalable platform APIs
- Root cause analysis and performance optimization in production environments

Co-Founder & Instructor · [Alma Surf School](#) 2013 – 2022

- Built and scaled a seasonal surf school from zero — operations, team, product
- Managed 10 instructors; ran bookings, training, and customer experience

PROJECTS — RIPTIDE STUDIO

Breaking Trail · [Technical Blog](#) breaking-trail.vercel.app

ServiceNow technical reference in Spanish — 19 articles on real production problems, with working code. Built with Next.js.

ShiftSwap · [SaaS App](#)

Shift-change management app for small businesses — full-stack, covering requests, approvals, and team scheduling.

Snow Copilot · [Chrome Extension](#) Chrome Extension

AI-powered developer tool for ServiceNow. Integrates into the platform UI to assist with scripting and code generation.

EDUCATION

The Bridge 2022–2023
Full Stack Developer Bootcamp

Univ. Oviedo & Mondragon
Bachelor's in Economics & Business
